## **NOTICE REGARDING RENEWALS:**

The original Certificate of Approval—identified by the Edition of the Manual and the Approved date shown in this list—is valid as of the date of this list, only if the original or renewal date shown hereon is within three (3) years of the date of this list. The responsibility to request a renewal of an Approval is that of each manufacturer. The USC Foundation retains the right of determining the extent of re-evaluation required before renewal is granted. Certificates of Approval are not recalled for the purpose of updating the effective date. This revision of date is only published via the current *List of Approved Backflow Prevention Assemblies*.

## **NOTICE REGARDING INSTALLATION:**

Unless otherwise specified by the manufacturer all assemblies are to be installed on cold potable water applications - below 110°F. Also all of the assemblies listed are Approved for the **INDICATED ORIENTATION(S) ONLY** (Please see the legend page 6). Rotation of assemblies on either axis will invalidate the USC Foundation's Approval. Use of spare parts other than those of the original manufacturer invalidates the Approval. Rotation of shutoff valves of one bolt hole only is permitted only for the 2 1/2" and larger flanged assemblies.

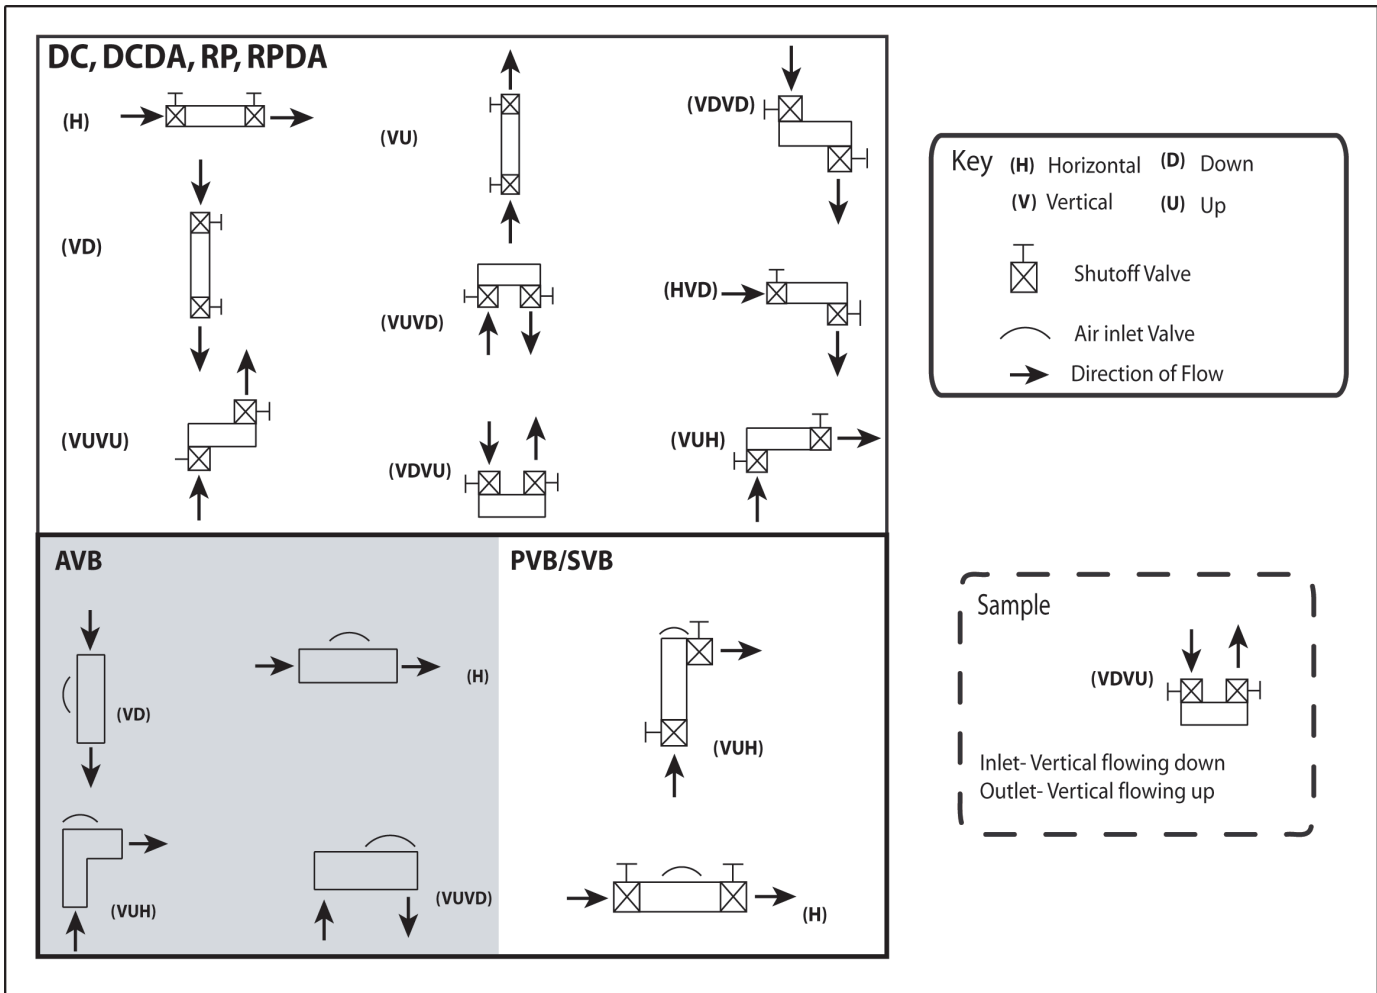

## **NOTICE REGARDING LEAD CONTENT:**

In order to determine if backflow preventers comply with lead-free requirements of several states and the Safe Drinking Water Act, USC Foundation Approved assemblies which comply with the  $\leq 0.25\%$  lead requirement are indicated by a Y in the column  $\leq 0.25\%Pb$ .

## **NOTICE REGARDING LIST UPDATES**

The List of Approved Assemblies is printed annually in the first quarter of the year. Update notices are printed and sent to USC Foundation Members quarterly. The most recent changes to the List may be found on the USC Foundation's website. The web version of the List is updated each time a change is made.

# Orientation of Assemblies

## Shutoff Valve Designation

The backflow prevention assemblies shown on this list have been evaluated with a specific set of shutoff valves as an integral part of the assembly. The specific shutoff valves are coded by a parenthetic code show with each assembly. This coding of shutoff valves is defined below. Other shutoff valves having similar performance characteristics which permit the assembly to comply with the standards are also shown immediately after the original shutoff valves. The use of any shutoff valve on a specific assembly, other than those listed for that specific assembly invalidates the Approval. Assemblies listed with a Y in the “spare parts only” column may not include the shutoff valve designation.

# Shutoff Valve Designation

The backflow prevention assemblies shown on this list have been evaluated with a specific set of shutoff valves as an integral part of the assembly. The specific shutoff valves are coded by a parenthesis code show with each assembly. This coding of shutoff valves is defined below. Other shutoff valves having similar performance characteristics which permit the assembly to comply with the standards are also shown immediately after the original shutoff valves. The use of any shutoff valve on a specific assembly, other than those listed for that specific assembly invalidates the Approval. Assemblies listed with a Y in the “spare parts only” column may not include the shutoff valve designation.

(ooooo)	ARI HC260 and HC262 Ball Valves - QT
(ppppp)	Febco Model LF622UF & LF622UFT (1/2" - 2" Ball Valve QT)
(qqqqq)	Febco Model LF622F & LF622FT (1/2" - 2" Ball Valve QT)
(rrrrr)	Watts Model LFFBV-FRG & LFFBV-E-FRG (1/2" - 2" Ball Valve QT)
(sssss)	Apollo Series 91B and 91C-QT (1/2"-2")
(ttttt)	Apollo Series 91BLF and 91CLF-QT (1/2"-2")
(uuuuu)	Apollo Model 77B-LFU and 77C-LFU Union Ball Valves - QT (1/2")

(aaaaa)	Apollo Model GV (GXG) - OSY (2-1/2" - 10")
(bbbbb)	Apollo Model GV (FXF) - NRS (2-1/2" - 10")
(ccccc)	Apollo Model GV (FXF) - OSY (2-1/2" - 10")

## Detector Assembly Meters

The Detector Assemblies contained herein have been evaluated with a specific meter as the detector element of the assembly. That specific meter is coded by a parenthetic letter shown in the “meters” column. The coding of meters is shown in this Section. Other meters having similar performance characteristics to permit the assembly to meet the Standard are shown immediately after the original evaluation meter. The use of any other meter or modified bypass piping invalidates the Approval.

Some of the detector assemblies use a line-size assembly, which is not a standard stock Approved assembly. Increased load are required in these line-size units to allow the assembly to accurately record low flow rates in the bypass meter. Therefore, various ‘off the shelf’ components can not be assembled and expected to perform satisfactorily. The bypass backflow preventer Approved with the detector assembly is listed under the ‘bypass’ column. This is only for verification purposes. Should replacement parts or complete bypass be needed, the model number of the complete detector assembly should be used in ordering these components.

A	Hersey Model F-F 5/8" x 3/4"
B	Carlson 5/8" x 3/4"
C	Dandé Model D-3 5/8" x 3/4"
D	Gamon-Calmet 5/8"
E	Hays Acumeter 5/8" x 3/4"
F	Arad 5/8" x 3/4" (Master Meter)
G	Schlumberger 5/8" x 3/4" Model MBRF
H	Rockwell (Sensus) SR-II 5/8" x 3/4"
I	Hersey Model 430 - 5/8"
J	Elster AMCO Model C700 5/8"x3/4" (Formerly Kent, ABB)
K	Precision 5/8"
L	Neptune Trident 8 5/8"
M	Neptune T-10 5/8" (Lead free compliant version identified with NSF61 mark on meter)
N	Badger Model 25 3/4"
O	Badger 5/8" x 3/4" Model 25 (Lead free compliant version identified with NSF61 mark on meter)
P	Hersey Model 430 Series II 5/8"
Q	Hersey Model MVR-30 3/4"
R	Neptune T-10 1"
S	Neptune T-10 1 1/2"

# Special Notices

From time to time the Foundation issues Special Notices when specific information needs to be brought before the Members of the Foundation. A copy of the notices are sent to Foundation Members as they are published.

Notices are summarized as follows.

## **Notice 96-001**

This notice lists Ames assemblies which have been reported with low check valve readings. Corrections to the problem are discussed.

## **Notice 97-001**

This Notice discusses changes in the Wilkins 975 8" and 10" reduced pressure principle assemblies. A change in the retaining cup in the relief valve stem.

## **Notice 97-002**

This notice identifies Ames 2000SS, 3000SS, and 4000SS series assemblies were discovered to have unapproved components.

## **Notice 97-003**

This notice lists assemblies which were NOT Approved by the Foundation, although advertisements may have implied otherwise.

## **Notice 98-001**

This notice advises members of certain action in the Federal Register regarding cross-connection control programs.

## **Notice 98-002**

This notice advises members of Wilkins 950 series and 975 series modifications.

## **Notice 99-001**

This notice lists assemblies which were NOT Approved by the Foundation, although advertisements may have implied otherwise.

## **Notice 99-002**

This notice lists assemblies which were NOT Approved by the Foundation, although advertisements may have implied otherwise.

## **Notice 99-003**

This notice lists assemblies which were NOT Approved by the Foundation, although advertisements may have implied otherwise.

## **Notice 01-001**

Discuss silicon parts in certain Febco relief valves

## **Notice 01-002/Revised Notice 01-002-R1**

This notice discusses some check valves not approved in certain Ames and Watts assemblies

## **Notice 01-003**

This notice lists assemblies which were NOT Approved by the Foundation, although advertisements may have implied otherwise.

## **Notice 02-001**

This notice explains there are some specific Febco assemblies with unapproved check valve retainers.

## **Notice 03-001**

This notice explains there are some improper markings of model designations on some Wilkins assemblies

## **Notice 03-002**

This notice explains there is the possibility of the interference of the check valves on some Ames and Watts assemblies

## **Notice 04-001**

This notice identifies some Febco 825YA assemblies sold with a dimensional variation

## **Notice 05-001**

This Notice identifies some Ames and Watts assemblies sold with unapproved disc material.

## **Notice 06-001**

This notice identifies unapproved guides found in certain Febco assemblies

## **Notice 06-002**

This notice identifies a change in the design of the Flomatic PVBs

## **Notice 06-003**

Notice regarding Cash-Acme Assemblies

## **Notice 07-001**

Out of tolerance springs on Conbraco assemblies

## **Notice 09-001**

Unapproved Third party components are being distributed

## **Notice 13-001**

Modifications to guiding surfaces of the check valves on Wilkins assemblies

## **Notice 14-001**

Clarifies the Approval status of Apollo/Conbraco backflow prevention assemblies

## **Notice 14-002**

Clarifies the method in which the model designation is indicated on the Wilkins 3/4" 950XLD and 975XLD assemblies

## **Notice 15-001**

This notice has been prepared to review Special Notice 14-002 and clarify the USC Approval Status of Wilkins Reduced Pressure Principle Detector Assemblies (RPDAs).
