

IRRIGATION SYSTEMS:

“HOW TO WATER YOUR YARD AND GARDEN EFFICIENTLY”

IT'S A FREE CLASS!

SATURDAY, MAY 19, 2018, 10:00-11:30 a.m.

LOCATED AT THE DISTRICT OFFICE

Do you have an in-ground irrigation system? Are you thinking about installing one? Do you want to reduce your water bill while maintaining a beautiful garden and landscape?

Mark Guthrie,
Landscape Water
Conservation

Program Manager for the Saving Water Partnership, will explain how you can make your irrigation system more efficient and use less water. Topics include, how to set your irrigation timer, choosing the best irrigation equipment for watering plants, and how to use your water meter to detect possible leaks.

We are glad to offer this class on a Saturday, in anticipation of a great turnout!

To register for the class, please call 425 255-9600, or email Deb Gill, at debg@kcwd90.com.

- ✓ Dress suitably for outside demonstration.
- ✓ Refreshments provided.
