

KING COUNTY WATER DISTRICT NO. 90

KING COUNTY, WASHINGTON

RESOLUTION NO. 1152

A RESOLUTION of the Board of Commissioners of King County Water District No. 90, King County, Washington, making a finding that a Portable Intertie and Pump Trailer from PumpTech is a single sole-source and authorizing purchase as necessary to the District operations.

WHEREAS, the District needs to procure a portable intertie and pump trailer system ("pump trailer system") to meet its operational needs, which system has been designed with the assistance of the District Engineer; and

WHEREAS, the District has determined that the pump trailer system will serve as a critical component of the District's emergency infrastructure, as further set forth in the Memorandum dated April 22, 2025, prepared by David Evans and Associates, Inc.; and

WHEREAS, District Management has investigated the availability of pump trailer systems for this specialized use and determined that the appropriate pump trailer system is exclusively available from PumpTech as the sole source vendor in Washington State; and

WHEREAS, It is in the District's best interest to approve the sole source purchase to meet the District's needs; and

WHEREAS, District Management has determined the price for the pump trailer system is fair and reasonable, not in excess of the cost of material or work, and within the cost of all similar or alternative devices or technologies; and

WHEREAS, the Board has considered and accepted the recommendations of management and the District engineer regarding the sole source availability of the pump trailer system; and the reasonableness and fairness of the purchase price proposed; and

RESOLUTION NO. 1152

SUBJECT: Sole Source purchase of pump trailer system

PAGE - 1

WHEREAS, based upon the foregoing, the Board finds that the purchase of the pump trailer system is clearly and legitimately limited to a single source of supply and involving special facilities in an instance in which the purchase price is best established by direct negotiation.

NOW, THEREFORE, BE IT RESOLVED by the Board of Commissioners of King County Water District No. 90, as follows:

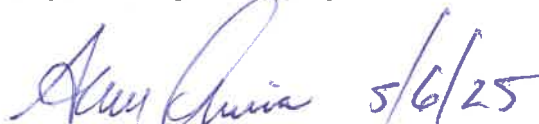

SECTION 1: That the competitive bidding requirements of R.C.W. 57.08.050 are hereby waived upon the findings made hereinabove as permitted by RCW 39.04.280 .

SECTION 2: That the PumpTech pump trailer system is hereby selected and confirmed as compatible with existing equipment and products and meets the required certifications.

SECTION 3: That purchase is necessary to meet the District's reasonable needs and is authorized as approved under the District's current and future budget process.

SECTION 4: The District manager is authorized to procure the pump trailer system for a cost not to exceed \$180,000.00.

ADOPTED by the Board of Commissioners of King County Water District No. 90, King County, Washington, at a regular, open public meeting thereof on the 7th day of May, 2024.

 5/6/25

Sam Amira, President

 5/6/25

Al Materi, Vice-President
