KING COUNTY
WATER
DISTRICT NO. 90
DEVELOPER EXTENSION AGREEMENT
April 2, 2019

Dear Developer:

In an effort to help keep your cost down and clarify project requirements, the required Pre-Design Meeting should be scheduled as soon as possible. This meeting will allow the Developer and/or Contractor, District Staff and our Engineer to discuss the DE contract, District standards and requirements, and prevent costly redesign of your project.

Please review the attached Developer’s Extension Agreement. The first page is to be filled out by the Developer/Contractor. The District will fill out the second and third pages with the description of required facilities after initial project review. The Developer and a representative of the District will sign the contract on page 17 at the Pre-Design Meeting.

Expenses will begin to be incurred once the Developer Extension Agreement is submitted to the District. The actual costs, including District staff time, plus 20 percent will be charged to the Developer/Contractor. The Developer/Contractor will be invoiced for all costs related to the project including District services, engineering, inspections and observations, legal services and other related charges. The Developer/Contractor will be invoiced monthly for any current developer extension charges.

An initial Application deposit of $5,000 is required to begin the process of a Developer Extension Agreement. Only limited preliminary work will be done on the project until the deposit is received and the District approves the Developer Extension Agreement.

The District will hold deposits until the acceptance of the project. At the time of acceptance, the deposit will be applied to the two-year maintenance guarantee retainage, which will be held as stated in the agreement. Any amount above the three percent Maintenance Guarantee (minimum amount of $2,500) will be refunded to the Developer after the final inspection and all invoices are paid in full.

Required items must be received by the District office on or before the scheduled Pre-Design Meeting, including the following:

1. Signed Developer Extension Agreement
2. $5,000 Deposit
3. Preliminary Plans
4. Estimated Cost of Water System Special Facilities such as PRV’s, pump station, or reservoir improvements (Developer’s Engineer)
5. Request for Estimate of Probable Costs from District’s Engineer.

If there are any further questions, please contact the undersigned at (425) 255-9600.

Sincerely,
Joshua Drummond
Operations Manager
# KING COUNTY WATER DISTRICT NO. 90

DEVELOPER EXTENSION APPLICATION AND AGREEMENT TO ALLOW CONSTRUCTION OF EXTENSION TO WATER SYSTEM FACILITIES

TO: KING COUNTY WATER DISTRICT NO. 90

THE UNDERSIGNED, hereinafter referred to as “Developer”, hereby makes application to King County Water District No. 90, hereinafter referred to as “District”, for permission to construct and install an extension to the District’s facilities in the public rights-of-way under the District’s franchise, and/or upon easements approved by the District, by the Developer Extension Agreement (DEA), and to connect to the District’s water distribution system; and in consideration thereof, makes the following representations and agreements, to wit:

1. LOCATION OF WATER SYSTEM EXTENSION:

NAME OF PLAT/PROJECT: ______________________________

Number of Proposed Lots: ___________

Legal Description: A copy of the plat must be attached and must include a legal description and by this reference is made a part of this Agreement.

2. DESCRIPTION OF EXTENSION:

A. Mains & Appurtenances:
The proposed extension will provide water service to the property described in Section 1 and shall consist of approximately ___________________________ lineal feet of water pipe and appurtenances ___________________________

Estimated cost of water system extension facilities $_________________.

Estimated by:

B. Special Facilities:
Special facilities are those that must be constructed to make service available to the Developer’s plat, but which are other than the typical mains and appurtenances for developer extension projects (e.g. pump stations and pressure reducing valve stations). The description and estimated construction cost of any special facilities are as follows: (check one)

   i. [ ] Not applicable

   ii. [ ] Special facilities to provide water service to the property described in Section 1 and shall consist of approximately ___________________________

Estimated cost of water system special facilities $_________________.

Estimated by: ___________________________.
C. Latecomers:
This project (check one): [ ] does [ ] does not

Include installation of facilities for which latecomer reimbursement may be available. An application for Latecomer reimbursement and certificate of cost shall be submitted with the Bill of Sale upon completion of the project. Entitlement to latecomer reimbursement and the amount thereof shall be determined in accordance with the District’s current latecomer policy Resolution, and shall be established by execution of the District’s Developer Extension Reimbursement Agreement by the District and the Developer. Based thereon, a Memorandum will be completed, adopted by Resolution, and recorded in accordance with RCW 57.22. If complete documentation is not provided with the Bill of Sale, upon written request from the Developer the District may extend the time at its sole discretion, but only for good cause shown. Failure to provide such documentation shall be considered a waiver of the right to such reimbursement.

The Developer shall pay a fee to the District for the preparation of the latecomer agreement consistent with the District’s resolution, plus 20% for District administrative costs; provided, however, that if the Developer waives latecomer, the 20% shall remain as a Special Connection Charge against any reimbursement area, to be paid by the connecting property owner to the District. (PH)

D. District Paid Oversizing/Facilities:

This project (check one): [ ] does [ ] does not

Include oversizing or installation of facilities. If the project does include oversizing or installation of facilities, it shall consist of

________________________________________________________

i. Oversizing/Facility Requirements: The District may require the installation of facilities or modification of the Developer’s proposed facility design in order to comply with the District’s Comprehensive Plan or as needed to provide service to other properties within the District’s Service Area. The most common example is the oversizing of lines. Oversized lines typically are those in excess of eight (8) inches in diameter. Any reimbursement for oversizing or facilities shall be determined by the Board of Commissioners prior to the start of construction and shall be established by Resolution in accordance with and pursuant to the laws of the State of Washington, and as further set forth in Paragraph 14.

E. Engineer:
The Developer can determine whether to use the District Engineer or use an engineer of the Developer’s choice.

This project (check one) will be: [ ] District Engineered [ ] Optional Engineering

Name of Engineer: _______________________________________________

The proposed extension shall be installed in accordance with plans and specifications approved by the District Engineer, and in accordance with the standards and conditions for constructing extensions to the water system adopted by the Board of Commissioners of the District, the terms of which are by this reference made a part hereof as though set forth in full herein. For any District paid oversizing or facilities, the District Engineer will be utilized for that portion of the project.

3. SUMMARY OF DEPOSITS AND CHARGES:

The following is a description of the deposits and charges, and the payment terms thereof attributable to this Agreement, and/or necessary for provision of service by the District. The deposits and charges summarized below are provided as an opinion of probable District costs for water main extension services. This is not a guarantee but based on similar projects of comparable size. The actual costs may be higher or lower than the figures given here.
KING COUNTY WATER DISTRICT NO. 90
DEVELOPER EXTENSION AGREEMENT (DEA)

It is the intent of this Agreement that the Developer make payment(s) to the District for all the District’s actual costs associated with this extension including, but not limited to, the District’s engineering, legal, permitting, laboratory analysis, direct staff time and administrative costs. All direct costs will be invoiced with a 20% overhead fee. The Developer will be invoiced monthly for costs incurred, and balances are due within 30 days of receipt of the District’s invoice. Failure to pay outstanding invoices within 30 days will result in a delay or work stoppage of the extension services by the District. In addition, completed payment is a prerequisite for acceptance by the District of the extension.

In the event any invoice authorized by this Agreement is not paid within 60 days, it shall be considered delinquent. Simple interest of 6% (but no more than the prime lending rate of the District's bank plus four percentage points) per year shall be added thereto until paid. After 90 days from the date of invoice, the District may stop all work by it, and the District Engineer required under this Agreement. After 120 days from the date of the invoice, the District may record liens against the property for the original invoice amount, plus the recording fee, and enforce such liens in accordance with RCW 57.08.081(4).

A. Deposits:
All Deposits will be collected by the District and held in reserve until the District accepts the project. Upon completion of the project, the deposit shall be applied to the Maintenance Guarantee Retainage as described in Section 10 of this agreement. The Maintenance Guarantee Retainage will be held for two years, and the balance of the deposit, if any, shall be refunded to the Developer.

- Application Deposit: A deposit of $5,000 is required at the time the Developer applies for a Developer Extension and prior to the scheduling of the Pre-design Meeting.

B. Charges For Using District Engineer:
Any District provided services, if using the District’s Engineer, shall be paid by the Developer to the District in an amount equal to the actual cost of basic engineering, administrative, legal services, and construction engineering services. The total charge shall be on an actual time and expense basis. Water main extension charges using the District’s Engineer are in consideration of the following basic work:

Basic Engineering, Administrative, and Legal Services:

i. General Consultation: General consultation with the Developer regarding the requirements by the District, the procedures of the Developer to make a water system extension, and administration of the Developer Extension Agreement. This general consultation with the Developer includes the extension design, Water District specifications, and other District requirements. Attend pre-design meeting with Developer and District.

ii. Preliminary Review: Preliminary review of the proposed development and preliminary layout of the required water main extension in accordance with the Water District’s Water Comprehensive Plan.

iii. Design of Water System Improvements: If the Developer elects to use the District’s engineer for water system design or is required to use the District’s Engineer due to the nature of the required improvements, the District’s engineer will prepare electronic drawings of the required extension and related improvements. The survey, if not provided by the Developer’s engineer, and if necessary, to design the project will be provided by the District Engineer. (LF)

v. Permitting: Application for State, City, and County permits, but not to include Corps of Engineers, Shoreline Management or SEPA process or requirements.
vi. Legal Fees: Regular and ordinary legal fees attributable to the administration of DEA shall be paid by the Developer. In the event that either the District or the Developer commences any legal action relating to the provisions of this Agreement, the prevailing party shall be entitled, in addition to all other amounts to which it is otherwise entitled by this Agreement, to all costs of litigation, including but not limited to costs, witness, expert and reasonable attorneys’ fees, including all such costs and fees incurred in appeal.

viii. Project Management: Perform Project Management for the DEA.

Construction Engineering Services:

i. Preconstruction Meeting: After the District has approved the plans and a Performance Guarantee Bond, if applicable, has been provided to the District, the Developer shall contact the District to schedule a pre-construction meeting. Construction of the water improvements for the Developer’s project shall not begin until at least forty-eight (48) hours after such preconstruction meeting. The preconstruction meeting will be held at the District office during normal District office hours. District staff may also determine to continue and/or complete the preconstruction meeting at the project site.

ii. Staking: Provide one complete set of construction stakes when needed (horizontal only). The Developer will provide the District with GPS data from the initial survey to be utilized by the District for inspection, construction record drawings, and project closeout. The data shall be collected using a survey-grade GPS device with a tolerance of 0.5 foot or better. The data shall be collected on the same horizontal and vertical datum as the project plans. The following water system features shall be collected:

- Valves
- Fire hydrants
- Water main fittings (Tees/wyes/crosses, bends, reducers)
- Water service meter boxes
- Air/Vacuum assemblies
- Blow-off assemblies
- Vaults (PRV, meter), including elevation at valve level

iii. GPS data: from the survey can be delivered to the District in .cor or .shp file formats.

iv. Field Observation: Field Observation of the construction in progress. All work shall be subject to field observation by the District and its representatives. The District shall at all times have access to the work wherever it is in preparation or progress, and the Developer shall provide proper facilities for such access and field observation. The Developer shall make tests of the work at the Developer’s expense upon the District’s request. Whenever work must be specially tested or inspected for compliance with public regulations, or with the plans and specifications, the Developer shall give the District reasonable notice of the readiness of the work for such test or inspection. The District shall make inspections within one business day of notification by the Developer. Work shall not be covered up without the consent of the District, and if it should be covered without such consent, it must be uncovered for inspection at the Developer’s expense. Such inspections and tests shall not relieve the Developer of any of its responsibilities under this Agreement.

v. Quality Testing: Observation of the pressure tests required by the Specifications, and any re-tests which may be necessary, and water quality sampling on the completed water mains after flushing and submittal to the Washington State Department of Health. All water mains shall be purity tested under the District’s observation prior to any connection to the District’s water system.
vi. **Review and Approval:** Final review of the completed water main extension and examination of required documents, to assure that the District has legal title to the necessary easements and/or rights-of-way, review, and approval of the Developer’s warranty and Bill of Sale (BOS) and preparation of a final recommendation of acceptance of the water system by the Water District.

vii. **Drawings and CAD Standards:** Preparation of electronic construction record drawings of extension, including an as-built survey with GPS locations. The construction record drawings will also include installed storm, sewer, dry utility, and easements locations. Such drawings, including pipe size and material, rim and invert elevations, and structure type shall be provided to the District in an AutoCAD Civil 3D version approved by the District, and limited to the current or prior version of the software at the time that the agreement is signed. CRD’s must be submitted to the District in .cad, .pdf, .cor, and .shp file formats. Drawings shall be formatted to meet the requirements of the CAD to GIS Data Conversion - CAD Standards, which are located in Appendix 5 of the Developer Extension Agreement. Drawings that require District verification of accuracy or that do not meet the CAD formatting requirements will incur additional charges and can potentially delay the closeout of the project resulting in liquidated damages.

C. **Charges Using Developer Engineer:**

If the Developer is using its own Engineer, District provided services shall include but not be limited to the following: A “Review Fee” paid by the Developer to the District for the review of plans by the District to determine compliance with District standards and the requirements of other agencies having regulatory authority or control over the extension.

**Basic Engineering, Administrative, and Legal Services:**

i. **General Consultation:** General consultation with the Developer regarding the requirements of the District, the procedure for the Developer to make a water system extension and administration of the DEA. Attend pre-design and pre-construction meeting with Developer and District.

ii. **Preliminary Review:** Preliminary review of the proposed development and preliminary layout of the required water main extension in accordance with the District’s Water Comprehensive Plan and other related policies.

iii. **Consultation:** Consultation with the Developer during the period of the DEA regarding the extension design, District specifications, construction record drawings, and other District requirements.

iv. **Maps & Modeling:** All costs and expenses billed to the District by the District’s consultants for Mapping and Hydraulic Model updates to include the extension.

v. **Administration of the DE Agreement:** Including Bill of Sale and Resolution of Acceptance.

vi. **Project Management:** Perform Project Management for the DEA.

vii. **Legal Fees:** Regular and ordinary legal fees attributable to the administration of DEA.

viii. **Construction Engineering Services**

ix. **Staking:** Provide one complete set of construction stakes when needed (horizontal only). The Developer will provide the District with GPS data from the initial survey to be utilized by the District for inspection, construction record drawings, and project closeout. The data shall be collected using a survey-grade GPS device with a tolerance of 0.5’ or better. The data shall be collected on the same horizontal and vertical datum as the project plans. The following water system features shall be collected:
KING COUNTY WATER DISTRICT NO. 90
DEVELOPER EXTENSION AGREEMENT (DEA)

- Valves
- Fire hydrants
- Water main fittings (Tees/wyes/crosses, bends, reducers)
- Water service meter boxes
- Air/Vacuum assemblies
- Blow-off assemblies
- Vaults (PRV, meter), including elevation at valve level

x. GPS data: from the survey can be delivered to the District in .cor or .shp file formats.

xi. Field Observation: Field Observation of the construction in progress. All work shall be subject to field observation by the District and its representatives. The District shall at all times have access to the work wherever it is in preparation or progress, and the Developer shall provide proper facilities for such access and field observation. The Developer shall make tests of the work at the Developer’s expense upon the District’s request. Whenever work must be specially tested or inspected for compliance with public regulations, or with the plans and specifications, the Developer shall give the District reasonable notice of the readiness of the work for such test or inspection. The District shall make inspections within one business day of notification by the Developer. Work shall not be covered up without the consent of the District, and if it should be covered without such consent, it must be uncovered for inspection at the Developer’s expense. Such inspections and tests shall not relieve the Developer of any of its responsibilities under this Agreement.

xii. Quality Testing: Observation of the pressure test required by the specification, and any re-tests which may be necessary, and sampling of the completed water main after flushing and submittal to the Washington State Department of Health.

xiii. Final review: Final review of the completed water main extension and examination of required documents, to assure that the District has legal title to the necessary easements and/or rights-of-way, review, and approval of the Developer’s warranty and BOS and preparation of a final recommendation of acceptance of the water system by the District.

xiv. Drawings and CAD Standards: Preparation of electronic construction record drawings of extension, including an as-built survey with GPS locations. The construction record drawings will also include installed storm sewer and easements locations. Such drawings, including pipe size and material, rim and invert elevations, and structure type shall be provided to the District in an AutoCAD. Civil 3D version approved by the District and limited to the current or prior version of the software at the time that the agreement is signed. CRD’s must be submitted to the District in .cad, .pdf, .cor and .shp file formats. Drawings shall be formatted to meet the requirements of the CAD to GIS Data Conversion - CAD Standards, which are located in Appendix 5 of the Developer Extension Agreement. Drawings that require District verification of accuracy or that do not meet the formatting requirements will incur additional charges and can potentially delay the closeout of the project resulting in liquidated damages.

D. Estimate of Probable Cost(s):
Developers considering using the District Engineer can request an estimate of probable costs at the beginning of the project. The actual estimate will be included in this contract as Attachment “A”. A probable cost estimate is only generated upon request and relies on a series of assumptions.

E. Additional Requirements with the OPTIONAL ENGINEERING METHOD:

NOTE: THE OPTIONAL ENGINEERING ASSUMES THAT THE DEVELOPER’S ENGINEER WILL PERFORM THE FOLLOWING FUNCTIONS WITH REGARD TO THE DEVELOPMENT:
SELECTION OF DEVELOPER’S ENGINEER
DEVELOPER EXTENSION AGREEMENT (DEA)

Should Developer elect to use its own licensed professional engineer to design and prepare the plans, at the time of Developer’s submission of this Agreement to the District for execution, the Developer shall notify the District in writing, by including the name and contact information on the “Developer Information Contact Sheet”, on Page 1 of this Agreement, of the person or firm proposed to do the design. The Developer shall not employ any person or firm for any part of the design work that the District does not approve of in writing, which shall not unreasonably be withheld. Nothing contained in this DEA shall create any contractual rights between the District and any person or firm employed by Developer to design and prepare the plans. The Developer is required to notify the District in writing if the Developer’s engineer is replaced during the course of this DEA agreement.

i. A Pre-design meeting shall be held with the District and District’s Engineer with Developer and Developer’s Engineer in attendance to determine the District’s construction specifications and standards and advise Developer of specific project requirements.

ii. Provide five (5) sets of approved contract plans and specifications to the District in addition to a .pdf version. The District shall have the right to require changes in the preliminary design and plan as may be deemed necessary. PDF versions are permitted for interim plan submittals.

iii. Upon approval of the final plans, the District Operations Manager, (or the District Engineer in his or her absence) shall indicate approval of the plan on original full-size paper drawings. Developer’s Engineer shall provide AutoCAD Drawing Compatible (.DWG) electronic files limited to the current or prior version of the software at the time that the Agreement is signed, which shall interface with District drawings; files to include any special fonts used, all external cross-references, lot and street layout with computation data, street and storm plan, and profile data, and site topography and proposed site grading plan. The plans shall become the property of the District. Neither the Developer nor Developer’s Engineer shall have any rights of ownership, copyright, trademark, or patent in the plans.

F. Additional Charge(s):
The work described below is in addition to the basic work performed in conjunction with the main extension. The need for additional District services will be based on the complexity of the extension. Additional charges for such services shall be based upon the District’s current schedule of costs for District employees, engineering, legal, and other actual charges for work plus 20 percent overhead. The District shall be paid by the Developer for the cost of any work required in addition to the basic work scheduled in Section B or C, including, but not limited to the following:

i. Revisions to the DEA and specifications and other work occasioned by any act or omission of the Developer, the Developer’s Engineer and/or Contractor.

ii. Any costs incurred for surveying.

iii. Additional charges for administrative, legal, repairs, or paving costs, and fees incurred at any date beyond the limitation for acceptance set forth in Section 8.

iv. Costs of preparing applications for and obtaining City, King County, State, Federal and/or other governmental agency permits, franchises, annexations or required approvals, and charges for any meetings and inspections performed by those agencies. This includes costs attributable to any required environmental assessment and evaluation, including SEPA Checklists and Determinations or Environmental Impact Statement. Charges for such services are established by the individual agency and not by the District.

v. Easement preparation costs, including title policies, as-built surveys, easement drafting, and any necessary addendum or special stipulations required therein.

vi. Any and all costs, charges, expenses, and damages incurred resulting from failure of the Developer to comply with this Agreement and/or requirements of any governing agency.
vii. Any and all costs, charges, and expenses incurred by the District to perform or complete any of those functions identified to be performed by the Developer’s Engineer under the Optional Engineering Method, as described in Section 3C.

ix. All costs and expenses billed to the District by the District’s Engineer attributable to engineering advice to Developer and/or its Engineer as a result of inability or failure of Developer’s Engineer to perform the services described in Section 3C.

x. Notification and re-notification of customers for water system shutdown.

xi. All costs, damages, and expenses, including reasonable attorney fees, incurred by the District in responding to, and/or defending claims made by third parties for acts of the Developer, its engineer or contractor.

xii. The Developer Conformance Charge is a charge for document changes reflecting any adjustments, amendments, or additions to the easement documents or construction record drawings of the District that are required due to changes in the following, but not limited to: lot line changes, lot number changes, greenbelt area legal description changes, and changes that require amendment to easement descriptions; any of said changes having been made after submittal of the preliminary plat plans, short plat or subdivision plans. Changes are based on a copy of the recorded plat which is to be provided to the District within one (1) week of recording.

G. Administrative Overhead Charge(s):
All costs for engineering, legal, permitting, inspecting, District labor, as well as other costs directly attributable to the extension, will be charged at actual cost plus 20 percent of the total thereof as the District’s Administrative Overhead costs attributable thereto.

4. INSURANCE REQUIREMENTS:

A. The Developer shall obtain and keep in force during the term of the contract, Commercial General Liability insurance policies with insurance companies which have an A.M. Best’s rating of A VII or better and who are approved by the Insurance Commissioner of the State of Washington pursuant to Title 48 RCW.

B. Prior to the execution of the contract, the Developer shall purchase and maintain during the term of this project a Commercial General Liability insurance policy meeting the requirements set forth herein. The Developer shall file with the District either a certified copy of all policies, insurance, endorsements, and coverages or a Certificate of Insurance with such endorsements attached, as are necessary to comply with these specifications. It is the responsibility of the Developer to provide renewed certified copies of all policies, insurance, and endorsements that expire during the term of this project. Failure of the Developer to fully comply with the requirements regarding insurance will be considered a material breach of contract and shall be cause for immediate termination of the Developer Extension Agreement and of any and all District obligations, regarding same.

C. The Developer shall not begin work under the Agreement or under any special condition until all required policies of insurance, endorsements, and coverages have been obtained and until such insurance has been approved by the District. Said insurance shall provide coverage to the Developer, and the District. The coverage so provided shall protect against claims from bodily injuries, including accidental death, as well as claims for property damage, which may arise from any act or omission of the Developer, the Developer’s Contractors, or by anyone directly or indirectly employed by either of them.
D. Approval of Developer’s insurance by the District shall not relieve Developer from any requirements to obtain the specific insurance, endorsements, and coverages required by this Agreement unless otherwise agreed in writing as a modification of this Agreement.

E. The insurance policies shall specifically name the District, its elected or appointed officials, officers, employees, agents and volunteers as insureds with regards to damages and defense of claims arising from: (a) activities performed by or on behalf of the Developer; or (b) products and completed operations of the Developer, or (c) premises owned, leased or used by the Developer. The insurance shall be maintained in full force and effect at the Developer’s expense throughout the term of the DEA.

F. The District shall be given at least 30 days written notice of cancellation, nonrenewal, material reduction, or modification of coverage, such notice to be given by certified mail. The Developer shall maintain its products-completed operations coverage for a minimum of three years after the earlier of substantial completion or termination of this Agreement.

G. The coverage provided by the Developer’s insurance policies shall be primary to any insurance maintained by the District. Any insurance that might cover this Agreement, which is maintained by the District shall be in excess of the Developer’s insurance and shall not contribute with it.

H. The Developer’s insurance policies shall protect each insured in the same manner as though a separate policy had been issued to each. The inclusion of more than one insured shall not affect the rights of any insured as respects any claim, suit or judgment made or brought by or for any other insured or by or for any employee of any other insured. However, this provision shall not increase the limits of the insurer’s liability.

I. The General Aggregate provision of the Developer’s insurance policies shall be amended to show that the General Aggregate Limit of the policies applies separately to this Project.

J. The Developer’s insurance policies shall not contain deductibles or self-insured retentions in excess of $10,000 unless approved by the District.

K. The Developer’s insurance policies shall contain a provision that the District has no obligation to report events, which might give rise to a claim until a claim has been filed with the District’s Board of Commissioners.

L. Types and Limits of Insurance Required:

**Commercial General Liability**
- $1,000,000 each occurrence Bodily Injury and Property Damage Liability
- $2,000,000 Annual Aggregate
- Employees and volunteers as Additional Insureds
- Premises and Operations
- Broad form property damage including underground, explosion and collapse hazards (XCU)
- Products completed operations
- Blanket contractual
- Subcontractors
- Personal injury with employee exclusion deleted
- Employers liability (Stop gap)

**Automobile Liability**
- $1,000,000 per accident bodily injury and property damage liability, including:
  - Any owned automobile
  - Hired automobiles
  - Non-owned automobile
Umbrella Liability

- $2,000,000 per occurrence
- $2,000,000 Aggregate

M. As an alternative to the above indicated Commercial General Liability and Umbrella Liability insurance policies, the Developer may provide the District with an Owners and Contractors Protective (OCP) policy with a limit of coverage of $5,000,000. The Developer shall additionally provide the District with evidence that the District has been named as additional insured on the Contractor’s general liability policy for at least products-completed operations coverage.

N. Providing coverage in the stated amounts shall not be construed to relieve the Developer from liability in excess of such limits.

O. The Developer shall have its insurance agent/representative complete the Insurance Coverage Questionnaire contained in the proposal and attach it to the Certificate of Insurance along with all policy endorsements necessary to comply with these requirements, for District’s approval. Notations made on the Certificate of Insurance as to satisfying these insurance requirements is not sufficient evidence: Only endorsements to the affected policies will be accepted.

P. The Developer’s Contractor shall maintain Workers Compensation Insurance and/or Longshore and Harbor Workers’ Insurance (or Jones Act coverage for all employees eligible for same) as required by state or federal statute for all of its employees to be engaged in work on the Project under this contract and, in case any such work is sublet, the Developer’s Contractor shall require the Subcontractor similarly to provide Workers Compensation Insurance and/or Longshore and Harbor Workers’ Insurance (or Jones Act coverage) for all of the latter’s employees to be engaged in such work. The Developer’s Department of Labor & Industries account number shall be noted on the Certificate of Insurance. In the event any class of employees engaged in the work under this contract is not covered under Workers Compensation Insurance or Longshore and Harbor Workers’ Insurance (or Jones Act coverage) as required by state and federal statute, the Developer shall maintain and cause each Subcontractor to maintain employees liability insurance for limits of at least $1,000,000 each employee for disease or accident, and shall furnish the District with satisfactory evidence of such.

Q. The Developer and its Contractor shall be solely and completely responsible for safety and safety conditions on the job site, including the safety of all persons and property during the performance of the work. The services of the District’s employees or Engineer’s personnel in conducting construction review of the Developer’s Contractor’s performance is not intended to include review of the adequacy of work methods, equipment, bracing, scaffolding, or trenching, or safety measures in, on, or near the construction site. The Developer and its Contractor shall provide safe access for the District and its inspectors to adequately inspect the quality of work and the conformance with project specifications.

R. The Developer and its Contractor shall be solely and completely responsible to perform all work and furnish all materials in strict compliance with all applicable state, city, county and federal laws, regulations, ordinances, orders, and codes. The Developer’s attention is directed to the requirements of the Washington Industrial Safety and Health Act (WISHA), Chapter 49.17 RCW.

S. The contractual coverage of the Developer’s policy shall be sufficiently broad enough to insure the provisions of the HOLD HARMLESS AND INDEMNIFICATION AGREEMENT of this contract.

T. Nothing contained in these insurance requirements is to be construed as limiting the extent of the Developer’s and its Contractor’s responsibility for payment of damages resulting from their operations under this contract.

U. There shall be provided to the District an “Accord Certificate of Insurance”. The Certificate is to be completed in full, endorsed to the required limits, and certified by the Developer’s or the Developer’s Contractor’s insurance company.
5. PERFORMANCE BOND:

The Developer shall furnish a fully executed Performance Bond prior to the preconstruction conference, on a form approved by the District and signed by an approved surety or sureties in an amount to be determined by the District Engineer. The Performance Bond shall be conditioned upon the faithful performance of all portions of the project that are either off-site (not on Developer owned property), or on Special Facilities, as defined in this document. The Bond shall remain in effect until the Developer has completed all such portions in accordance with District standards and the provisions of this Developer Extension Agreement. Faithful performance of off-site and special facilities will be demonstrated by the Substantial Completion Letter prepared by the District after inspection of said facilities. The Bond shall also provide that the surety agrees to protect and indemnify the District against any direct or indirect loss claimed:

A. By reason of failure by the Developer and/or its Contractor to faithfully perform the above-referenced portions of the work; or

B. By reason of failure by the Developer and/or its Contractor to pay all contractors, laborers, mechanics, sub-contractors, agents, suppliers, and all persons who shall supply such Developer and/or its Contractors, or their sub-contractors or agents, with provisions or supplies for carrying out those portions of the Developer Extension described above.

The Performance Bond shall be accompanied by a certification indicating the authenticity of the signing agent to act on behalf of the surety. The District may require the sureties or surety company to appear and qualify themselves upon the Bond. Whenever the surety or sureties are deemed insufficient, the District may demand in writing that the Developer furnish additional surety in an amount not exceeding that originally required as may be necessary to cover the remaining portion of the Developer Extension as described hereinabove.

6. PERMITS:

All construction in public roads or rights-of-way shall be done in accordance with the standards and requirements of the governmental agency having jurisdiction, and in accordance with requirements of the franchise or permit, therefore. The Developer and/or Contractor shall be responsible to obtain and comply with these requirements.

The Developer shall not begin work until the appropriate public authority has issued all necessary permits. The Developer shall reimburse the District for all costs incurred by the District for permits, inspection fees and other charges imposed by public authority because of the work. The Developer shall comply with the requirements of all permits.

A. MATERIAL AND EQUIPMENT REVIEW

The District requires a complete material submittal package for preliminary review of all materials a minimum of ten (10) calendar days prior to the beginning of construction. The submittal package can be in either .pdf or paper form. The Developer may submit cut sheets at its initiative if he has a question on material suitability. The submitted materials shall be reviewed for compliance with District Specifications. Two (2) working days prior to the beginning of construction, the Developer shall notify the District that the materials are on site and available for mandatory review. The District will review all materials and/or material suppliers. Review may include the quantity, manufacturer, and model number, if applicable, of material and equipment to be installed as part of the “Work”. The District shall have the right to reject materials and equipment, which in the District’s opinion do not conform to District Specifications and the approved plans. Failure of the District to reject materials and equipment at the time the submittal package is submitted or at the onsite review shall not be deemed a waiver of the District’s right to reject such materials or equipment at a later time. The District and its Engineer shall be sole judge whether supplies or material quality “as equal” substitutions under the Plans and Specifications.
7. EASEMENTS:

All required easements required shall be obtained by the Developer without cost to the District and shall provide for a permanent easement and construction easement as shown on the Design and Plans. Executed copies of off-site easements shall be delivered to the District prior to construction. All other easements shall be delivered to the District prior to the District’s acceptance of the work. The Developer shall provide the District’s Engineer with supporting data to verify the location of all easements. All easements shall be a minimum of fifteen (15) feet in width, except on a case-by-case basis with permission from the District, and shall be clearly written in a manner that the easement can be plotted from the description. In the event that legal services are required incident to easements beyond review of the form thereof, the costs of such services shall be paid by the Developer in the amount as billed to the District before acceptance of the proposed extension. Developer shall also, upon request, provide the District satisfactory Title Insurance insuring without exception the District’s interest in all easements conveyed to the District. Easements shall be on the District’s standard form, an example of which is included in this document. Easements must be documented and recorded on all final plat document or equivalent.

8. LIMITATION PERIOD FOR ACCEPTANCE:

The Limitation Period for Acceptance of this extension shall be 24-months from the date of this Agreement.

- Projects requiring more than 24-months to complete will require an extension of this DEA. Renewals of DEA contracts will require a $300 renewal fee and a completed and signed DEA Extension form found in Appendix K.
- Renewals made after the DEA expires will require at $500 renewal fee.
- If in the discretion of the District, too much time has passed and the DEA cannot be renewed, a new DEA contract may be required.

The Developer agrees that the construction of the extension shall be carried out in a timely and efficient manner and further agrees that the improvements shall be completed and ready for acceptance by the District within the Limitation Period for Acceptance. If the Developer has executed a Performance Bond or a Set Aside Letter, upon expiration of the period thereof, the District may order the work done, or any remaining portion thereof, and all costs and expense incurred, shall be reimbursed to the District from the Bond company or financial institution holding the funds as provided in the set aside letter, provided, however, that the amount of such reimbursement available shall not be deemed to limit the Developer’s obligation to pay the total costs attributable to the work. If the work is completed beyond the period for acceptance, reimbursement shall also include the costs of renewal of this Agreement as described below.

If the extension is not completed and ready for acceptance within said period, the Developer’s rights under this Agreement shall cease and no additional administrative, engineering, or legal services will be provided by the District unless and until the Developer makes a new application, or until the District consents to the renewal of the expired Agreement.

9. ASSIGNMENT:

This Agreement may not be assigned or otherwise transferred without the express written consent of the District. Unauthorized assignment or transfer may void this Agreement in the discretion of the District. Any request to assign or transfer this Agreement must be made to the District in writing and must include completion of Attachment L – Assignment of DEA.
10. CERTIFICATION OF COST:

The Developer agrees that he will submit to the District a certificate of cost for the total cost (i.e. price paid) that he has incurred in the installation of the water lines and appurtenances pursuant to this Developer’s Extension Agreement at the time that he requests final approval and acceptance of said improvement. Therefore, Developer acknowledges that the District will not approve the Bill of Sale for the improvement until said the District receives the certification of costs; nor shall the Developer be allowed to apply for meters.

11. MAINTENANCE GUARANTEE RETAINAGE:

This Maintenance Guarantee Retainage is equal to 3% of the total cost of main water construction, but no less than $2,500. This Maintenance Guarantee shall be withheld from the original deposit at the time of acceptance of the completed project. The District will retain the Maintenance Guarantee for a minimum of two (2) years after the project is accepted. The Maintenance Guarantee Retainage shall be to condition the Developer’s compliance with the terms, conditions, and standards contained or referenced herein, and shall insure the District against any damage to its existing system and/or proposed extension as a result of the Developer’s failure to comply.

The Maintenance Guarantee Retainage shall be used in cases determined by the District when the Developer has failed to make necessary repairs or restoration of any failures, including ditch settlement, of any portion of the project covered by the guarantee within seven days or per City or County Standards, whichever is shorter, after notification by the District of the necessity for said repairs. At the end of the seven day period, if the Developer has not accomplished the necessary work, the District will have the work done and pay all costs in connection therewith from the deposit. Determination of any necessary repairs or restoration will be made by the District during the course of periodic inspections and until the final inspection that is to be made within two (2) years of the District’s acceptance of the Bill of Sale as provided herein. The Maintenance Guarantee Retainage will be retained by the District until all items requiring repair or restoration have been satisfactorily completed, and a copy of King County’s or the City’s approval of the plat have been provided to the District.

In the event the Maintenance Guarantee Retainage is reduced by application by the District to repairs or restoration prior to the final inspection, the District may notify the Developer of the amount of the Guarantee Deposit, which has been utilized, and the Developer shall immediately deposit with the District the amount of such deposit deficiency.

The amount of the Maintenance Guarantee Retainage shall not constitute a limit on the amount of any District claim, nor on the Developer’s liability for repairs or restoration, or liability arising out of any other claim by the District for breach of any term of this Agreement.

A. DEFECTIVE WORK AND CORRECTIVE ACTION

Work which is found by the District not to comply with the plans and specifications shall be remedied so as to comply therewith. The Developer shall correct or replace any defective work or material discovered by the District within two years after the work has been accepted by the District. Such correction or replacement shall commence within seven days from the time of Developer’s receipt of notice from the District of defective work or materials and shall be completed promptly. If not so commenced, or, in an emergency, when damage may result from delay, such correction or replacement may be made by the District at the expense of the Developer/Contractor. The Developer shall reimburse the District upon demand, for any expense (s) resulting from defects which appear within two years after acceptance of the Developer’s work, including actual damages, cost of materials and labor expended by the District in making emergency repairs, cost of engineering, inspection, 20 percent overhead, and supervision by the District or the Engineers, and attorney’s fees, and costs incurred by the District as a result thereof.
B. USE OF COMPLETED PORTIONS

The District shall have the right to take possession of and use any completed or partially completed portions of the work although the time may not have expired for completing the entire work, and this shall not be deemed acceptance of any of the work.

12. FINAL ACCEPTANCE:

All material and completed work are subject to final inspection by the District, which shall have the right to subject any portion thereof to such tests as in the opinion of the District shall be necessary to determine whether or not the work complies with the Plans and Specifications.

The District agrees to accept a Bill of Sale to the extension when all work which may in any way affect the water lines constituting the extension has been properly completed, and when any and all damage to said water lines which may have been caused thereby has been repaired, and when the District has made final inspection and given approval of the system as having been completed in accordance with the plans and specifications; PROVIDED, no acceptance will be considered if the Developer is in default of any of the terms of this Agreement; acceptance of said extension shall be by resolution of the Board of Commissioners of King County Water District No. 90, and prior to such acceptance, a completed Bill of Sale must be executed on the form furnished by the District.

13. BILL OF SALE:

The Bill of Sale will provide for the transfer of title to the constructed extension from the Developer to the District, and its acceptance is conditioned upon the following:

A. The Developer is the lawful owner and has the right to transfer the extension, that the extension is free from all encumberances, and that the Developer will warrant and defend the same against all claims and demands of any person.

B. All bills for labor and materials have been paid, and the Developer has provided a certificate from the Contractor installing the extension (See Attachment C; Addendum to Developer Extension Agreement Form – Proof of Contractor Payment), and the Developer’s Engineer (if optional method) (See Attachment D; Second Addendum to Developer Extension Agreement Form – Proof of Engineer Payment), acknowledging that the Contractor and Engineer have been paid in full and/or do fully release, transfer, assign and set over to the District all of their rights, title, claims and interest therein.

C. The Developer has submitted to the District, the certification of costs incurred in the installation of the extension.

D. The consideration for the Bill of Sale shall be the District’s incorporation of the improvements into its overall water distribution system.

E. The Developer warrants that for a period of two (2) years from the date of the Bill of Sale the water system will remain in acceptable working order and condition, except where abused or neglected by the District, and the Developer will repair or replace at its own expense any work or material that is shown to have been defective during the said two (2) year period of warranty.

F. The Developer warrants that paving which has been completed will remain in acceptable condition for two (2) years from the date of the Bill of Sale. For paving which has not been completed on the date of the Bill of Sale, for which there is a paving deposit, the Developer warrants that after the paving has been completed, it will remain in acceptable condition for two (2) years from the date of the Bill of Sale, or one (1) year from the date of completion of the paving, whichever is later. The Developer will repair or replace at its own expense any paving work or material that is shown to have failed during the applicable period.
G. The Developer agrees to defend and hold the District and its Engineer harmless for trench failures or settlement occurring over any portions of the system installed on the private property for two (2) years from the date of the Bill of Sale. The District and its Engineer do not, by virtue of their construction observation and/or inspection, assume liability for such failures, any such construction observation and/or inspection being for the District’s purposes of ensuring the soundness of the installation of its system facilities, and not as a warranty of compaction or other restoration on private property. (PH)

H. The Developer warrants that bushes, trees and other landscaping plantings installed as a part of the permit-required restoration will remain in acceptable condition for the time from the date of the Bill of Sale specified in the applicable permit. The Developer will maintain such plantings at its own expense during such period. The Developer shall replace at its own expense any such plantings that have failed during the applicable period. In the alternative, and at the District’s option, the District and the Developer may agree on an amount of payment to the district for which the District will assume the obligation for maintenance and replacement of landscape plantings required hereunder.

I. The Developer has submitted a copy of the recorded plat.

Such acceptance by the District shall not relieve the Developer of the obligations to correct defects in labor and/or materials as heretofore provided and/or the obligations set forth in the applicable paragraphs hereof. Acceptance by the District’s Board of Commissioners shall cause said an extension to be subject to the control, use and operation of the District, which may apply thereto all regulations and conditions of service and make such changes therefore as the Board of Commissioners of said District deem reasonable and proper.

14. FACILITIES AND IMPROVEMENTS REQUIRED BY DISTRICT:

A. The District may require the installation of facilities, or modification of the Developer’s proposed facility design in order to comply with the District’s Comprehensive Plan or to provide service availability to other properties within the District’s service areas. The most common example is the oversizing or over depth of lines and the construction of offsite facilities. An estimated reimbursement amount for the extra cost of such District-required facilities and improvements shall be determined by the Board of Commissioners prior to the start of construction, and shall be established by Motion of the Board. Oversized lines are generally those in excess of eight (8) inches equivalent in diameter. Lines sized over eight (8) inches to meet the development’s requirements (e.g., larger diameter to compensate for flatter slopes) are not considered oversizing. Overdepth lines are those deeper than ten (10) feet, and only to the extent, they are at least two (2) feet deeper than the development’s requirements in order to meet the District’s Comprehensive Plan or service availability to other properties.

B. In the event of unforeseen circumstances which require an increase in the District’s cost obligation from that set by the Motion, this Agreement may be modified by supplemental agreement covering said increase. Developer shall provide complete documentation of its costs attributable to such oversize/over depth at the time of the acceptance of the Bill of Sale for the project. If complete documentation is not provided within ninety (90) days, upon written request from the Developer the District may extend the time at its sole discretion, but only for good cause shown. Failure to provide such documentation shall be considered a waiver of the right to such reimbursement.

C. Written approval must be secured from the District before the beginning of such work. Upon completion of the extension, the final amount of reimbursement will be confirmed by Resolution of the Board of Commissioners in accordance with and pursuant to the laws of the State of Washington.
D. The District may refuse to participate in an extension which would otherwise qualify for District reimbursement if budgetary considerations or the prudent management of the District indicates such participation is not appropriate at the time. In such event, the Developer may proceed to construct its extension, but with the facilities or design modifications, and shall be entitled to a reimbursement agreement with the District, payment to be conditioned upon future events as determined by the District which justifies such District expenditure, e.g., development utilizing such oversized facilities and providing General Facility Charge funds to the District.

E. In the event the District and the Developer are unable to reach agreement as to a reimbursement amount, or as to the increased costs to the District's obligation due to unforeseen circumstances, the Developer may bring no claim against the District in litigation unless the claim has first been the subject of a non-binding mediation before a single mediator under the Voluntary Construction Mediation Rules of the American Arbitration Association in effect as of the Effective Date of the Agreement. The mediation shall be conducted as soon as is practicable after the completion of the project. This requirement cannot be waived except by an explicit written waiver signed by the District. The request for mediation shall be submitted in writing to the American Arbitration Association. The District and the Developer shall participate in the mediation process in good faith. An officer of Developer, and the General Manager or his designee from the District, both having full authority to settle the claim, must attend the mediation session. To the extent there are other parties in interest, such as engineers, subcontractors, or suppliers, their representatives, with full authority to settle any claim, shall also attend the mediation session. Unless the District and the Developer mutually agree in writing otherwise, all unresolved claims shall be considered at a single mediation session which shall occur prior to acceptance by the District of the Bill of Sale.

15. INDEMNITY:

The Developer shall indemnify, defend and hold the District and its elected officials, employees, agents, volunteers, attorneys, and engineers harmless from and against all losses and claims, demands, payments, suits, actions, recoveries and judgments of every nature and description brought or recovered against the District by reason of the act or omission of the Developer, his agents or employees, or the contractor in the performance of the work, and for any cost or expense incurred by the District in connection therewith, including overhead expense, legal expense, attorney's fees and costs attributable thereto, and it suit in respect to the foregoing is filed, the Developer shall appear and defend the same at its own cost and expense, and if judgment is rendered or settlement made requiring payment of damages by the District, the Developer shall pay the same.

A. EXISTING UTILITIES OR OBSTRUCTIONS

Preparation of Plans by District Engineer: Should the Design and Plans be prepared by the District Engineer, existing utilities and obstructions are shown on the Drawings so far as known to the District Engineer and the District, but may have been obtained from old drawings or verbally from persons connected with the particular utility. Such information is not guaranteed but is made available to the Developer for such value as it may have. Incompleteness or errors in this information shall not be the cause of claim against the District Engineer or the District nor shall it relieve the Developer of responsibility for repairing any damage the Developer’s activities may cause to such utilities. The Developer shall reimburse the District for damage to the property of the District or damage to property of others for which the District is liable caused by the Developer and for other expense, including attorneys’ fees and court costs incurred by the District because of such damage. Whenever the contractor fails to repair or restore existing improvements damaged by the Contractor within 72-hours of notice, the District may order said work done by others and all costs incurred by the District for such work shall be paid by the Developer.

Preparation of Plans by Developer Engineer: In the event Developer elects to use its own engineer to Design and prepare the Plans, the District shall make available to the Developer such information as it may have regarding existing utilities and obstructions. Such information is not guaranteed but is made available to the Developer for such value as it may have. Incompleteness or errors in this information shall not be the cause of claim against the District Engineer or the District nor shall it
relieve the Developer of responsibility for repairing any damage his activities may cause to such utilities. It shall be the Developer’s responsibility to contact all necessary utilities and determine what existing utilities and obstructions may exist. The Developer shall reimburse the District for damage to the property of the District or damage to property of others for which the District is liable caused by the Developer and for other expenses, including attorneys’ fees and court costs incurred by the District because of such damage. Whenever the contractor fails to repair or restore existing improvements damaged by the Contractor within 72-hours of notice, the District may order said work done by others and all costs incurred by the District for such work shall be paid by the Developer.

B. GOVERNING LAW/FORUM

This Agreement or Contract shall be construed and enforced in accordance with, and the validity and performance hereof shall be governed by, the laws of the State of Washington. Any suit to enforce the provisions of this Agreement shall be brought in King County, Washington Superior Court.

16. CANCELLATION OF AGREEMENT

A Developer Extension Agreement may be canceled under the following circumstances:

A. The Developer gives the District written Notice of its request to cancel the Agreement;

B. After a period of inactivity, the District gives the Developer written Notice of the District's intent to cancel the Agreement, unless the Developer shall object in writing to such cancellation within thirty (30) days of such Notice by the District.

Regardless of how a Developer Extension Agreement cancellation is initiated, the procedures to cancel the Agreement shall be as follows:

A. The District shall notify the District Engineer in writing that the project has been canceled, and shall request from the Engineer a final invoice for engineering services rendered to the project, together with a statement of the percentage of plans completed to the date of cancellation;

B. The District and its Engineer will review their records to identify all outstanding work orders which should be cancelled/closed by the cancellation of the project;

C. A final invoice shall be prepared by the District indicating the project’s balance (for refund), or shortage (due from Developer) as of the date of cancellation;

D. Either a voucher request or an invoice, as appropriate, shall be prepared to close out the project financially;

E. If an amount is due, the invoice shall notify the Developer that the balance on the invoice, if it becomes delinquent, shall accrue penalties and interest in accordance with the District’s collection procedures and policies, and applicable statutes;

F. If an amount is due, and any deposit accounts have balances, the balance of such deposit account may be applied by the District to the outstanding invoice without regard to the nature of the balance on the invoice, and without regard to the nature of the deposit account which contains the balance; and

G. The District will show the project as canceled in its database, and move the files for the project to the District’s inactive files.

Once a Developer Extension Agreement has been cancelled, it may be revived only in the exercise of the District’s sole discretion.
17. BREACH OF CONTRACT - ATTORNEY FEES

A breach of any provision of this Agreement shall constitute a total breach thereof, and shall subject the Developer to the cancellation of the Agreement, forfeiture of deposits, and claim for costs, and damages, as appropriate. The parties agree that in the event of litigation regarding the terms or performance of this Agreement, the substantially prevailing party shall be entitled to an award of reasonable attorney fees and costs, in addition to any other appropriate remedy.

18. RECORDING OF NOTICE OF EXECUTION OF AGREEMENT

Upon execution hereof, the District may record a Notice of Execution of Developer Extension Agreement against the property as reasonably necessary to notify persons dealing with the property that it is subject to the terms hereof. Upon completion of the project, the District may record a Notice of Completion of Developer Extension Agreement. The Notices shall be in the form described under “Documents” herein.

19. GENERAL WATER PROVISIONS

The General Water Provisions are attached as Appendix 1 and by this reference incorporated into this document.

20. ACKNOWLEDGMENT

The Developer acknowledges that he has read the Application and Agreement to allow construction of an extension of water system facilities and the General Water Provisions and all other portions of the DEA contained in this booklet and he agrees to comply with all the conditions identified and all other applicable District regulations and Washington Law.

KNOW ALL PEOPLE BY THESE PRESENTS:

That we,______________________________________, the CONTRACTOR, herein referred to as PRINCIPAL, and __________________________________, as SURETY, are held and firmly bound unto King County Water District No. 90 of the State of Washington in the full sum of _______ dollars ($_______), Lawful money of the United States, for the payment of which, well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITIONS of this obligation are such that, whereas, the Principal has entered into an agreement in writing with the OWNER, dated __________, 20__, for the installation of approximately _______ lineal feet of ______-inch Ductile Iron pipe and __________________________ as described in __________________________, according to the terms, conditions and covenants specified in the agreement including all of the contract documents therein referred to, which are hereby referred to and made a part hereof as fully and completely as though set forth in detail herein, and

WHEREAS, it is understood and made a part of the consideration for this obligation that the OWNER shall have the right to sue on this bond in its own name to recover for any loss, injury, damage or liability whatsoever sustained or incurred by it by reason of any breach of the contract documents, or of any provision in this bond, in the same manner and to the same extent as though this obligation ran directly to the OWNER.

NOW, THEREFORE, if the Principal shall well, truly and faithfully perform all of the provisions and fulfill all of the undertakings, covenants, terms, conditions and agreements of said Contract during the period of the original contract and any extensions thereof that may be granted by the OWNER, with or without notice to the surety; and during the life of any guaranty required under the contract; and shall also well and truly perform and fulfill all of the undertakings, covenants, terms and conditions and agreements of any and all duly authorized modifications of said Contract that may hereinafter be made; notice of which modifications to the surety being hereby waived; and furthermore shall pay all laborers, mechanics, and subcontractors and material men, and all persons who shall supply such person or persons and such Principal or subcontractors with provisions and supplies for the carrying on of such Work, shall indemnify and save harmless OWNER from all cost and damage by reason of the Principal’s default or failure to do so, and shall pay the State of Washington sales and use taxes, and amounts due said State pursuant to Titles 50 and 51 of the Revised Code of Washington; and shall further indemnify the workmanship or materials entering into any part of the Work as defined in the agreement that shall develop or be discovered within one year after the final acceptance of such Work, then this obligation shall be null and void, otherwise to remain in full force and effect; provided, that the provisions of this bond shall not apply to any money loaned or advanced to the Principal or any subcontractor or other person in the performance of any such Work.

IT IS FURTHER DECLARED AND AGREED that nothing of any kind or nature whatsoever that will not discharge the Principal shall operate as a discharge or release of liability of the Surety, any law, rule of equity or usage relating to the liability of sureties to the contrary notwithstanding.

DEA ATTACHMENT H – AGREEMENT FOR EASEMENT FORM

Filed for Record at the request of:
KING COUNTY WATER DISTRICT NO. 90
15606 S.E. 128TH STREET
RENTON, WASHINGTON  98059

Easement No.:  **
Project:  **
Tax Parcel ID#:  **
Abbrev. Legal  **
Grantor(s):  **
Grantee:  KING COUNTY WATER DISTRICT NO. 90

AGREEMENT FOR EASEMENT

THIS AGREEMENT, made this_____ day of ___________________, 20__, by and between KING COUNTY WATER DISTRICT NO. 90, a municipal corporation of King County, Washington, hereinafter termed the "District" and **[property owner names], hereinafter termed "Grantor",

WHEREAS, Grantor is the owner of land at approximately **[street address or location general description], Washington, legally described as follows:

The plat of ** as recorded in Volume ______, of Plats, pages _____ through ______, records of King County, Washington.
WHEREAS, the District requires an easement for water main and appurtenances across Grantor's property at a location more specifically described herein below; and

WHEREAS, Grantor has title to said real property and is authorized to grant and convey this easement to the District.

NOW, THEREFORE, in consideration of the sum of One Dollar ($1.00), and other good and valuable consideration in hand paid, receipt of which is hereby acknowledged, and in consideration of the performance by the District of the covenants, terms and conditions hereinafter set forth, Grantor hereby grants, conveys and quitclaims to the District the following easement:

That portion of the above-described real property further described as follows:

**[easement legal description]

TOGETHER WITH the exterior 10.00 feet parallel with and adjoining the street frontage of all lots and tracts, all within said plat of **.

The Grantor warrants that their title is free and clear of all encumbrances except:

(These blanks should be either filled in and initialed by the Grantor or x’d out completely)

If the property of the Grantors at the time of granting this easement is unplatted but is platted prior to the recording of this document, then the Grantors do hereby authorize the District to add to this agreement the designation (volume and page, etc.) of such plat.

1. DISTRICT'S USE OF PROPERTY. Said easement is for the purpose of installing, constructing, operating, inspecting, maintaining, removing, repairing, replacing and using gravity and pressure sanitary sewer mains, manholes and/or water lines and appurtenances thereto including all valves and fire hydrants (the "facilities"), together with the nonexclusive right of ingress to and egress from said portion of Grantor's property for the foregoing purposes.

2. USE OF PROPERTY BY GRANTOR. Grantor shall retain the right to use the surface of the easement if such use does not interfere with installation or maintenance of the facilities. Grantor shall not erect buildings or structures; shall not
install any other improvements including trees, large shrubbery, or fences; and shall not change surface grades, except as approved in advance by the District, in any manner which would unreasonably interfere with ingress, egress and access by the District for installation and/or normal maintenance of the facilities. Such buildings, structures or improvements will be deemed an encroachment upon the District's rights, and Grantor shall be obligated to remove such encroachments at Grantor's expense. Further, the provisions of Paragraph 4 hereof as to restoration shall not apply to any such encroachments in the easement area. Provided, however, that fences may be constructed which provide gate or other access approved in advance by the District.

3. RESTORATION AFTER ORIGINAL CONSTRUCTION. For original construction, Grantor's property will be restored to a condition as good as or better than it was prior to the entry by the District. Where possible, photographs will be taken prior to construction to assure the completeness of restoration. Final restoration shall include, as appropriate, sod replacement in existing lawns, hydroseeding in unimproved areas, and replanting or replacement of existing shrubs and bushes, where such will not unreasonably interfere with the District's use of the easement. Fences, rockeries, and concrete, asphalt and/or gravel driveways which do not unreasonably interfere with the District's use of the easement will be repaired or replaced. Large trees that exist within the easement area may be permanently removed during original construction unless otherwise noted in this easement document.

4. RESTORATION AFTER MAINTENANCE. If Grantor's property is disturbed by the maintenance, removal, repair, or replacement of the facilities, the District shall restore the easement area to a condition as good as or better than it was prior to entry for such purpose by the District.

5. ATTORNEY'S FEES. In case suit or action is commenced by either party, or their successors and/or assigns, to enforce any rights under this easement, or regarding an encroachment on the easement, in addition to costs provided by statute, the substantially prevailing party shall be entitled to an award of attorney's fees in such sum as the Court may adjudge just and reasonable.

6. EASEMENT TO BIND SUCCESSORS. This easement is permanent and shall terminate only upon agreement of the parties hereto, their successors and/or assigns. This easement, during its existence, shall be a covenant running with the land and shall be binding on the successors, heirs and assigns of the parties hereto.

7. EXEMPTION FROM EXCISE TAX. The District is a municipal corporation with powers of eminent domain. This easement is granted for a public purpose. The
District shall hold Grantor harmless from the imposition or payment of any excise tax based upon the conveyance of this easement.

8. INDEMNIFICATION AND HOLD HARMLESS. The District will indemnify, defend and hold harmless Grantor, and its successors and assigns, from claims for injury to person or property as a result of the negligence of Grantee, its agents and employees in the construction, operation or maintenance of the Facilities.

The easement, during its existence, shall be a covenant running with the land and shall be binding on the successors, heirs, and assigns of both of the parties hereto.

DEA ATTACHMENT I – LIMITED USE PERMIT

KING COUNTY WATER Permit No.:
DISTRICT NO. 90’S Permit Project:
For Limited Use of Real Property For Temporary Construction

THIS LIMITED USE PERMIT made this day of , 20 , by and between **** ("Grantor" herein) and KING COUNTY WATER DISTRICT NO. 90, a Washington municipal corporation (the "District" herein).

Grantor hereby grants permission to the District to use the following described real property (the "Property" herein) situated in King County, Washington:

PARCEL DESCRIPTION:
*

PERMIT DESCRIPTION:
That portion of the above-described parcel further described as follows:
*

1. TERM. Unless otherwise terminated pursuant to the terms hereof, the term of this permit is *** days beginning on the day the Contractor enters the site for construction.

2. GRANTEES’ USE OF PROPERTY. District’s use of the property shall be for excavation and construction of water main line(s) and for the inspection thereof.

3. GRANTOR’S USE OF PROPERTY. During the term of this Limited Use Permit, Grantor shall not use the subject property for any purpose unless such use is approved in advance by Grantees in writing.

4. RESTORATION. Upon termination of this permit, the District will restore the surface of the property to a condition as good as or better than it was prior to entry by the District. The District will exercise its best efforts not to damage any private improvements on the property, but if it does so, it shall repair and/or replace said improvements.

5. ATTORNEY’S FEES. In case suit or action is commenced by either party, or their successors, heirs or assign, regarding an encroachment on the easement, in addition to costs provided by statute, the substantially prevailing party shall be entitled to an award of attorney fees in such sum as the Court may adjudge reasonable.
